

Student Loan Advocates

Student Loan Advocates - Student Advocates opened its doors back in 2007 to ease the burden of student loans for individuals needing guidance on how to navigate through DOE programs and requirements. We provide solutions for a variety of situations by presenting you with options that will meet your needs. Student Debt Advocates helps you prepare and process the application for student loan consolidation and repayment programs offered by the DOE. Loan forgiveness offered by DOE typically takes 120-240 months in the program and is based on your loan term and is not guaranteed. American Student Loan Advocates is a Document Preparation and student representation company. We assist clients in understanding the vast amounts of Federal Direct loans and prepare the required documents for submission.
